
Kaštánkov Is Opening Soon!

We're excited to welcome the first children to Kaštánkov Early Childhood Center, newly established at Charles University. We officially open on **January 5, 2026**, offering a warm and nurturing space for children aged 1 to 6 years.

Kaštánkov was created to support parents and caregivers working at Charles University — helping them balance work and family life with confidence. In a friendly environment and with a personalized approach, our experienced team will care for each child with kindness and professionalism.

Curious to see more? No need to wait until January! Join us for our **Open House Days on December 1–2, 2025**. Come with your children or on your own, explore the space, and ask anything you'd like to know.

Enrollment opens on November 18, 2025 — full details will be available on our website.

The pricing will be added soon. The center's operation will be supported by a government subsidy, and the monthly fee for children under the age of 3 is regulated by a government decree.
